

## **NCI Current Engineering Projects Spring 2011**

**Harlowton's Pre-highway Condition**

### **Harlowton North Highway Project**

Design 7.2 miles of primary highway in rolling terrain. Design includes horizontal alignment to avoid utility conflicts and vertical alignment adjustments to flatten grades and meet design standards. Project includes construction plans, signing plans, right-of-way plans, utility plans, hydraulic report, and engineering cadastral survey. NCI is pleased to announce the project is in the final phases of construction.
